

Premium outdoor ground covering

- TERRACE +

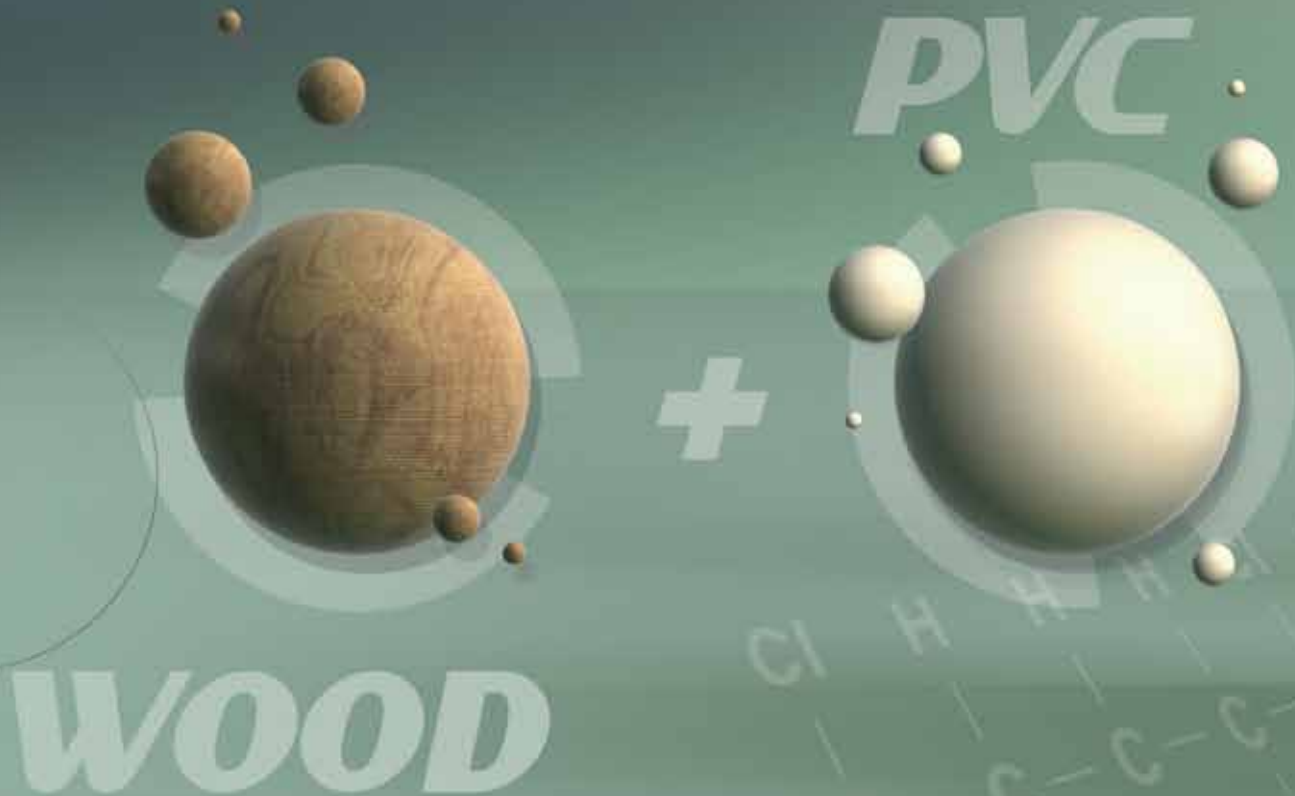

TWINSON

BEST OF BOTH WORLDS

Welcome to the world of Twinson, where nature and technology go hand in hand. Twinson is made of **wood and PVC**. By combining the advantages of both materials in a single new base material, Twinson gives you the **best of both worlds** - the **natural appearance** and **warm feel of wood** as well as the **low-maintenance** and **durability of PVC**. Twinson is **100% recyclable** - as well as being an **environmentally friendly** alternative to tropical hardwood. While tropical hardwood is only available in the threatened rain forests, Twinson contains pine, which grows quickly in forests that are continually being replanted. The extraordinary qualities of Twinson O-Terrace+ are guaranteed by the **German VHI quality label**.

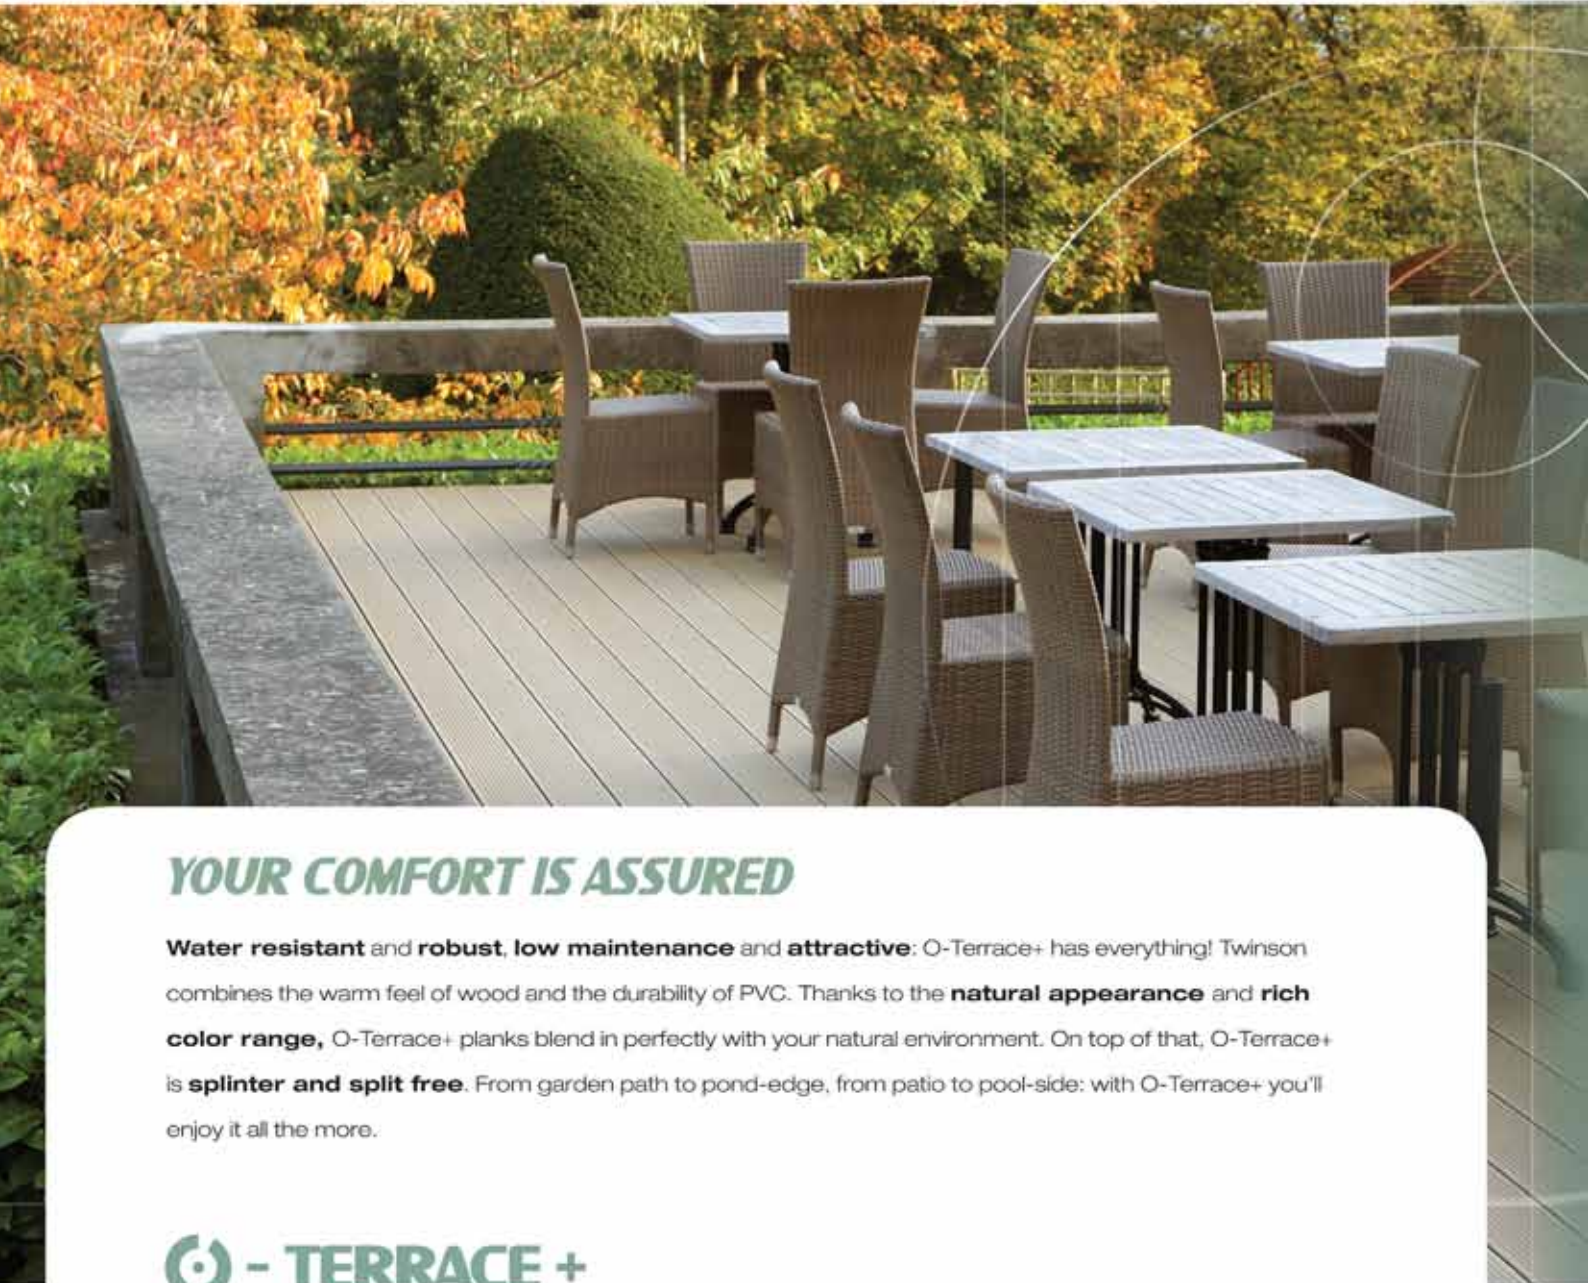

TWINSON combines all the advantages of wood and PVC:

- | | |
|---|--|
| ● natural appearance | ● low maintenance |
| ● splinter free | ● water resistant |
| ● resistant to insects | ● easy to fit |
| ● does not split | ● robust |
| ● environmentally friendly (100% recyclable) | ● assembly with concealed system |
| ● durable | ● high slip resistance, even when wet |

The general conditions with regard to warranty are applicable.

YOUR COMFORT IS ASSURED

Water resistant and robust, low maintenance and attractive: O-Terrace+ has everything! Twinson combines the warm feel of wood and the durability of PVC. Thanks to the **natural appearance** and **rich color range**, O-Terrace+ planks blend in perfectly with your natural environment. On top of that, O-Terrace+ is **splinter and split free**. From garden path to pond-edge, from patio to pool-side: with O-Terrace+ you'll enjoy it all the more.

O - TERRACE +

Twinson has established a **premium** positioning in the world of outdoor ground covering. O-Terrace+ is the premium product for **commercial applications**, such as harbours, hotels, restaurants, pubs, public swimming pools,...

- **The surface is semi-flush:** the groove in between the planks is no sheer gap but rather a shallow accent line. Thanks to the nicked profile, small objects will not slip between the planks of the terrace.
- **Ease of installation:** a new clip & slide system with limited use of screws, patent pending. Furthermore the distance between the support beams is 60 cm instead of the standard 50 cm. Thus, the installation time is reduced to a minimum!
- The new assembly system allows **planks** to be **individually dismantled and replaced**.
- O-Terrace+ offers a very attractive new surface relief: **the wave design**. The planks have a high value appearance thanks to their **robust look**.

THE BEAUTY OF NATURAL COLOURS

With Twinson you can give your creativity free reign. From formal design to fanciful geometric shapes, with Twinson you can achieve anything! O-Terrace+ patio planks and finishing trims are available in 8 different natural colours from almond beige to liquorice black. With Twinson, you can transform your patio or garden into a stylishly finished environment that you can enjoy for years to come.

501

ALMOND BEIGE

507

OLIVE GREEN

503

HAZELNUT BROWN

504

BARK BROWN

509

RIVER STONE GREY

506

APRICOT BROWN

505

TURF BROWN

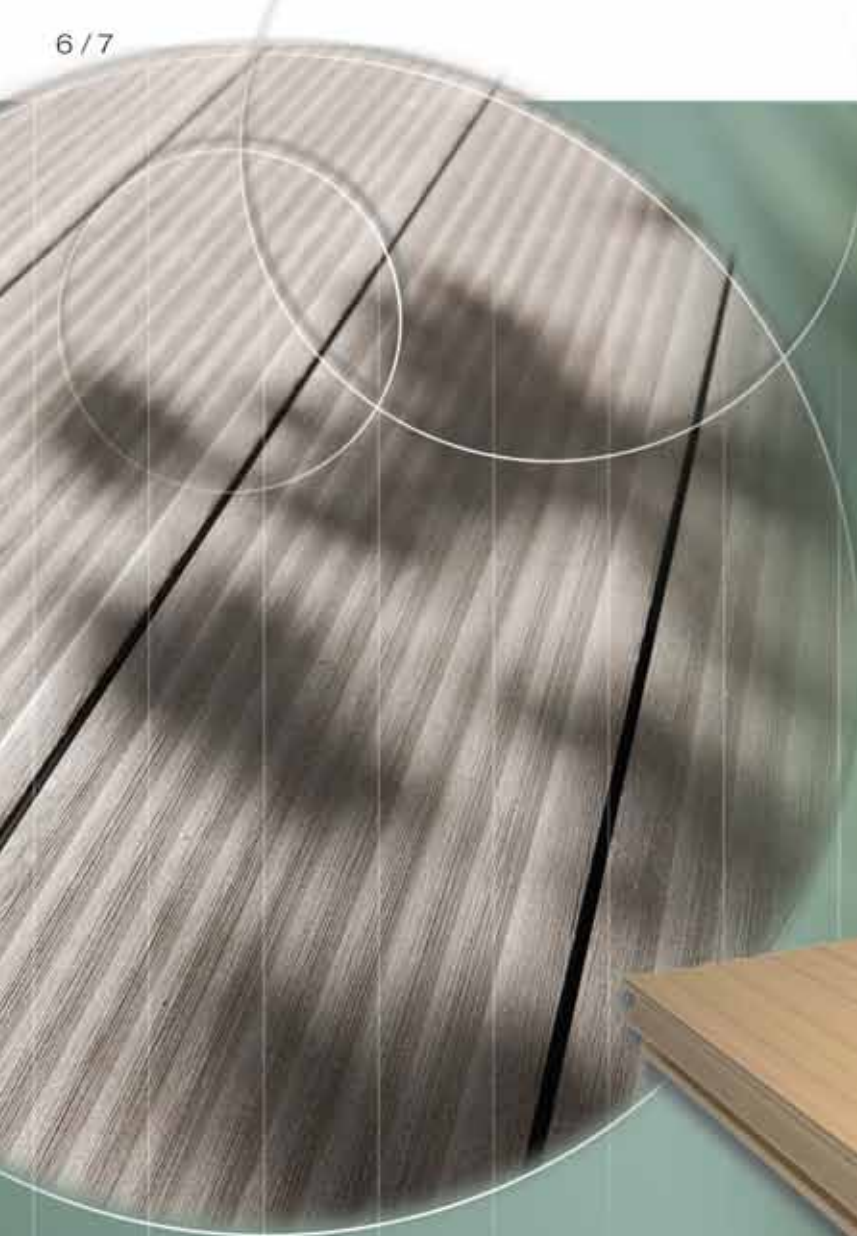

505

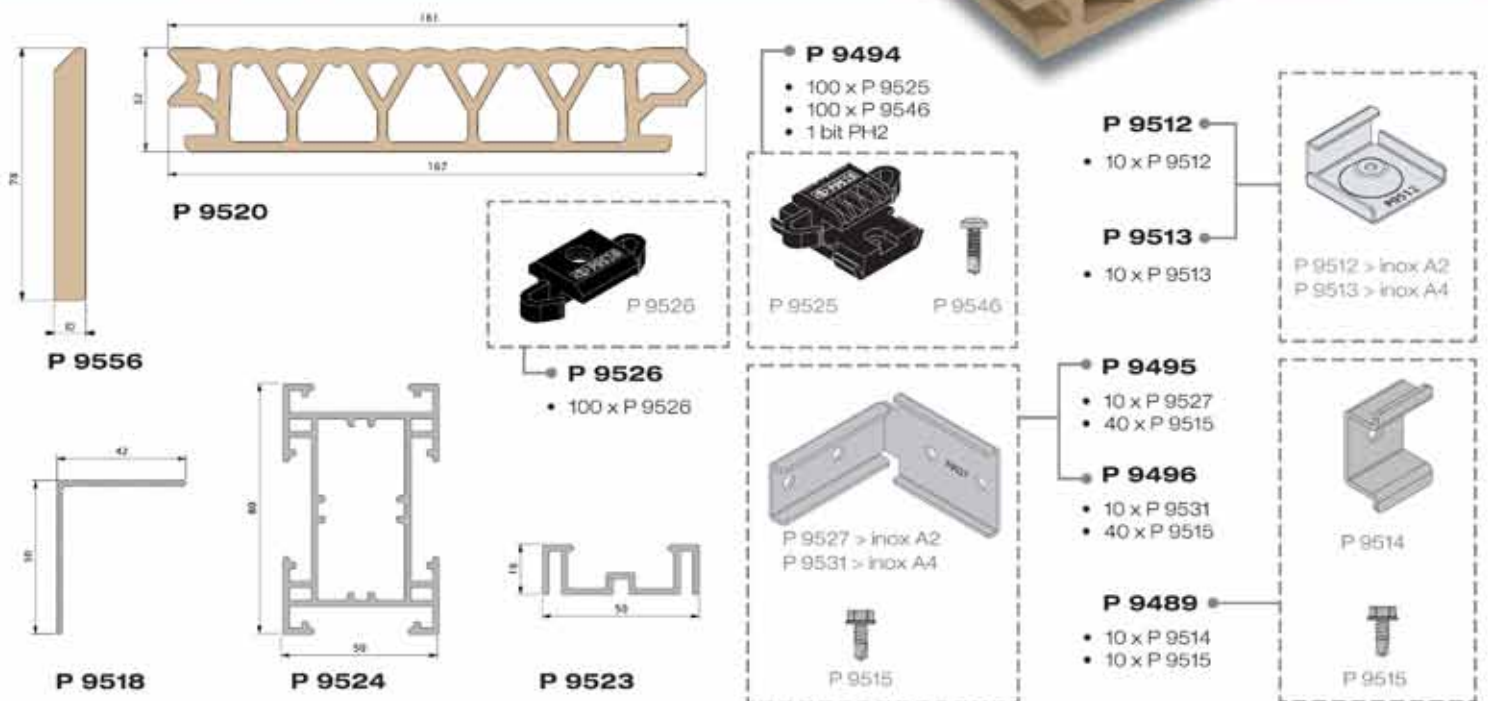

LIQUORICE BLACK

The colour samples are reproductions and can deviate from the originals. The large inset shows the natural colour which the O-Terrace+ will change to over time. Twinson is a semi natural product and therefore subject to variants in colour and character. Once the product is installed outside, the colour will start to stabilise. Planks should be mixed prior to installation to gain a natural effect. Brushed finishes and unbrushed finishes will ultimately become the same colour.
